

Vinay Nikose

Phone: +919325163052 | Email: vinaynikose04@gmail.com

Professional Summary

Aspiring Data professional with foundational knowledge in Machine Learning, Data Analysis, and Programming Education

B.Tech in Computer Science ■ Rashtrasant Tukadoji Maharaj Nagpur University ■ CGPA: 8.19 | Pass out: 2020

Skills

Programming Languages: Python, SQL, C

Machine Learning Frameworks: Scikit-learn

Data Visualization: Excel, PowerBI

Web Development: HTML

Projects

Project 1: Human Detection & Safety Precautions ■ Under the guidance of Prof. Aditya Turankar

Description: A computer vision project using machine learning to detect and recognize human presence

Your Role: Developed the detection model, integrated it into a real-time system, and tested its accuracy

Key Achievements: Successfully implemented real-time human detection with high accuracy, demonstrated in a demo

Project 2: Lecture Management Notification System ■ Under the guidance of Prof. Vaishali Gedam

Description: A mobile application for efficient lecture management and real-time notifications. Designed and developed

Your Role: Led the development of the app, including UI design, integration of notification system, and testing

Key Achievements: Delivered an intuitive app that streamlined communication between students and faculty

Certifications

Certificate of Completion in Zscaler Cybersecurity Fundamentals Associate Course

Certificate of 10 Weeks Virtual Internship in Zero Trust Cloud Security
